And Other Itching, Burning, Scaly Eruptions with Loss of Hair.

Speedy Cure Treatment.

Bathe the affected parts with Hot Water and Cuticura Soap, to cleanse the surface of crusts and scales, and soften the thickened cuticle. Dry, without hard rubbing, and apply Cuticura Cintment freely, to allay itching, irritation, and inflammation, and soothe and heat, and lastly take Cuticura Resolvent Pills, to cool and cleanse the blood. A single set is often sufficient to cure the most torturing, disfiguring, itching, burning, scaly, pimply humours, eczemas, rashes, Irritations, and chafings, with loss of hair, when all else falls,

The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psorlasis; the loss of hair and crusting of the scalp, as in scalled head; the facial disfigurement, as in pimples and ringworm; the awful suffering of infants and the anxiety of worn-out parents, as in milk crust, tetter, and sait rheum, —ali demand a remedy of simost superhuman virtues to successfully cope with them. Such are the Cuticura remedies, the purest, sweetest, most speedy and economical curatives for the sking scalp, and blood ever compounded. Mothers are their warmest friends.

Millions of Women Use Cuticura Soap

Assisted by Cuticura Ointment for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, for baby rashes and chafings, in the form of baths for annoying irritations and inflammations of women, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and many sanative, antiseptic purposes which readily suggest themselves, as well as for all the purposes of the tellet, bath, and nursery.

CUTICURA RESOLVENT PILLS (Chocolate Coated) are a new, tasteless, brated liquid Cuticura Resolvent, as well as for all other blood purifiers and humour cures. I'm up in screw-cap pocket vials, containing 60 doses.

A Chinaman and four Others

Eaten. His Imperial German Majesty's ship Condor, which returned to Sydney on April 12 after an extensive ornise among the islands of the South Sea, brought news of further acts of cannibalism in the Admiralty Islands, situated to the north of German New Guines (says the Sydney Morning Herald). When the Condor reached Herbertahoe, in New Britain, the seat of govvernment in the German Archipelago, it was reported that five murders had been committed by the natives on the south-east coast of the Admiralty Island, and the warship at once left for the scene to investigate the matter and to punish the offenders.

From what could be gathered it appears that a Chinaman and four black boys were suddenly attacked by a tribe of natives. and were killed with spears and clubs. The bodies of the unfortunate men were then collected and a huge fire was kindled, round which the tribe of natives gathered to witness them reasting. The natives, who are perhaps the most barbarous of any of the inhabitants of the South Seas, danced round the fire making hideous noises and rejoicing in the feast in which they were about to take part. Eventually, when the bodies of the five men had been cooked, the natives, numbering some hundreds, were seated in a circle and greedily devoured what had been prepared

An expedition well armed was sent ashore from the Condor, and from inquiries made among the natives the ringleaders were picked out and placed under arrest. The bones of the five murdered men were found and were interred. The prisoners were conducted on board the warship, and were kept under strict surveillance.

As soon as the members of the expedition had returned to the Condor the warship opened fire on the village. The bombardment, however, was not continued long, and there was probably little, if any, loss of life. As soon as the first shell exploded 913 on shore the natives fled to the hills, and the village was absolutely deserted. Indeed, some hundreds of the natives, upon noticing the warship approaching their coast, realised the object of her visit, and did not wait for the landing of the expediables enterprising traders throughout the tionary force. The shells fired by the alty Islands are cannibals, and many murders of whites have taken place there. The prisoners were conveyed by the Condor to Herbertshohe, where they were handed over to the Government authorities to be tried and dealt with. In all probability the more have long since been shot or otherwise executed.

The Admiralty Group consists of one large island, with numerous smaller ones around it. The inhabitants are not very black. Their physiognomy is agreeable, and differs but little from that of Europeans. The men wear a shell and some wear a cloth around the loins, but with these exceptions they are entirely naked. The women only have a garment round the waist. Their hair is curly, and of a black colour. They sometimes redden it with ochre mixed with oil. Some parts of the body, particularly the face, are also thus painted. During the voyage of H.M.S. Challenger in the year 1875 the natives were civil and well disposed. They offered no objection to landing or exploring any parts of the islands, although at first they showed some antipathy to the men visiting their villages.

The cruise just completed by the Condor has been a very interesting one, and a great deal of surveying has been carried out for the correction of charts. The Condor sailed from Sydney last September, and proceeded to Brisbane. The island cruise was commenced from there on Words a minute; completion to cor- October 1. Suva and Levuka, in the Fiji Group, being the first ports of call. A long stay was made at Samoa, where the people were found to be happy and 'ADVANCED' LESSONS to comple. prosperous. The officers of the Condor were particularly struck by the high state of civilisation attained by the natives, and by the fact that large numbers of young colonists are settling there. In December the Condor went to Suva (Fiji) for a couple of days, proceeding from thence to Jaluit, in the Marshall Islands, where the versel remained for five days for gun practice and coaling. The warship on December 20 sailed for the Caroline Group, MANIFOLDING, DUPLICATING, and Christmas Day mid New Year's Day being spent in port at Ponape. Afterwards the Condor paid a visit to the Truk Archipelago, a German possession in the Caroline Group. On the anniversary of the birth of his imperial Majesty the Emperor the Condor was at Yap, in the Carolines, The occasion was celebrated in a fitting manner. the ship being gaily dressed with flags. A Royal salute of 21 guns was fired, and boatracing and sports were indulged in by the members of the erew. Early in Rebruary the warship left for the Marian Islands. calling first at Guam, an American port and then at Sarpan, a German possession.

Everything was found to be quiet and the inhabitants seemed to be prospering. The Condor returned to Ponape, and on March Sarryol at Herbertabos, in New Britain the capital of the Garman Archivers Here the commander was applicable with the founders in the Aum rall.

recell referred to apri the vessel

left for the scene of the massacres. Subsequently a call was made at Frederick Wilhalmshafen, in German New Guinea, and on the let instant the Condor arrived at Matupi, near Herbertahoe to coal. The following day the voyage to Sydney was commenced, heavy weather conditions being encountered during the first stage of the passage, and she arrived on April 18.

ANOTHER TAX ON TEA.

Freight Rates to be Again Raised.

Just about a year ago (says the Times of : Ceylon) freight on toas to London was raised from 25s; to 27s. 8d. per ton, equivalent to about £12,000 extra on . shipments during the past 12 months. From the 1st May, freight on our staple product is to be still further increased by another half-a-crown per ton, making it. 30s, per shipping ton. Surely the local Shipping Conference might, at this juncture, reconsider their decision to tax the planting ; industry to the tune of a further R180,000 per annum. Several of the leading members of the Chamber of Commerce are also members of the Shipping Conference, and if they exhibit the same energy in watching ; the planters' interest on the freight question as they have done regarding the increase of duty in England, they will earn the gratitude of the Planters' Association. The latter body, anyhow, might well discase the subject at their next general meeting, and bring some pressure to bear directly upon the Chamber of Commerce (whose Chairman represents one of the leading Shipping Companies) and, through this institution, on the Shipping Conference. A rise in freight on tea at the rate of £12,000 per amount is hardly warranted | under present conditions of the tea industry. General cargo rates are not to be increased, so it is somewhat difficult to understand why tea has been specially selected for further taxation in the way of ireight.

REVIEW

FROM a DAVOS BALCONY, By Amy Me-Laren. London: Duckworth and Co.

There seems to be in vogue an attempt to revive the lost art of letter-writing. These Letters, written from Davos, are scarcely calculated to form a new classica model, but they are readable. Davos life is chattily depicted. Its Invalidism, its Cure, its Winter (which runs a typical Hongkong winter hard), its Toboggaping, ets Bob sleighing, its Skaring are so chatred about us to leave a good and strong impression. James, the wifely conducted, is funny, especially at the Fancy-dress Skate. The Romance, which commences unively, runs ruggedly, and the Denser machine is a introduced abruptly indeed. The Davos Balcony will while away a hot ovening-Peasantly.

HOMOKONG, BATURIAY, MAY 14, 1904.

tories over the stolid battalions of Imperial Russia. Strengthened by the crews of the imprisoned and damaged war-ships, the Russian garrison is prepared for a hard and prolonged defence and if it be true that the total forces locked up there number from 15,000 to 20,000 men, then it is possible the struggle for possession may be a long one. There are, however, two important factors to consider. The Russians have been shaken by successive and severe defeats; the Japanese have the élan and confidence that are born of success against a reputedly powerful foe, the representatives of a great nation that has terrorised Europe and conquered Central Asia with its armed cohorts. On the one side there is love of country—patriotism—and devotion to the throne; on the other, there is such a divorce of interests between people and ruler, such a long experience of bureaucratic repression and cruelty; that it is difficult to believe that the common soldier can be inspired by any higher idea than that of saving his own There are brave men on both

sides, however-intrepid leaders like Admiral Makaroff and the officers who brought the Varyag and Korceytz into action; men, who, on the command of their superiors, are prepared to sacrifice their lives, like the officers and sailors who helped to block Port Arthur and who forced the passage of the Yalu. There are therefore elements in Port Arthur and outside which

tion of Port Arthur :--has not added much to Port Arthur; for the main part, the troops have been quartered in the old Chinese houses or in the we believe that river steamers former barracks of the Chinese troops, affairs having been somewhat neglected view of the prior claim which the defences held. Now, however, fine barracks are course of construction, and, if there is no war, it is anticipated that ample accommodation will be ready, soon, upon the shores of some of the bays and on the hills. The defences are indeed magnificent. Very few of the forts which were in existence during the time of the Chinese remain Since the Russian Government entered Following the hills to the south and north efficiently. We have no doubt that his there are other forts; one in particular, recommendations will be acted upon, of great size, is placed upon the extreme of the range, and, towering above all else, sweeps the sea and appeciables to the hartboar for great distance. It is impossible to the station for great distance. It is impossible to the hartboar for great distances. It is impossible to the station of the part which the fort and the nature of the part which they are intended to fill, it is improbable that they can be less than 27-ton gain, discharging shells of forts is no less formidable, and it is sweet who what they can be less than 27-ton gain, discharging shells of forts is no less formidable.

The control of the part which they can be less than 27-ton gain, discharging shells of sound in the greet discharging shell of the greet discharging shell of the greet discharging shell of the greet discharging shells of sound in the greet discharging shell of sound in the greet discharging shell of the greet discharging shell of sound in the greet discharging shell of the greet discharg of great size, is placed upon the extreme

would be severely handled by the positions from which the Russians propose to defend their flanks and the neck. At the present, however, there is a paucity of field-guns among the troops in garrison, in addition to which many of the more recently constructed forts lack artillery; while the opinion may be bazarded that the entire position has been so over-fortified as to become a source of eventual weakness the ultimate disposition of the Russian

We presume that upon the arrival of Sir Matthew This year's world's championships will Nathan there will be a reshuffle of offices

The intermittent supply of water at of the Colony undoubtedly causes inconvenience to the poorer classes. Certain employes of the Water Department, however, have been reaping an exceptionally good harvest from this difficulty. Li Chun and another Chinaman, in particular, have been making money out of the water famine, but their success terminated abruptly yesterdayafternoon. Earlyin themorning LiShur called at a shop in Queen's Road West, and offered to get the water tap turned on for them on payment of \$16. The offer was accepted, but the people had not \$16 on the premises. They handed over \$6 and A large black cobra was captured alive asked Li Chun to call back for the remaininstead of receiving it they were arrested. and taken to the Magistracy. This more: ing they both received well-merited sentences, Li Chun being sentenced to eight months' imprisonment and six hours' stocks, while his assistant was sent to gaol for three months with six hours' stocks.

His Australian Wife.

Mrs Ethel Kat, a visitor from Australia, told a rather pitiful tale of alleged ill treatment at the Magistracy this morning. when she proceeded against her husband for assault. It appears that the prosecutrix and her husband arrived in the Colony yesterday from Australia by the steamer Eastern. They had been married only a few months, the ceremony having been performed at Tumut., N. S. Wales, where the defendant had a farm which brought him in a comfortable living. While in Australia, he treated his wife well, and spent money on her freely, but as soon as they came aboard the boat his attitude towards her was entirely changed. During the trip along -The Standard says :- The discovery of the Australian coast she alleged that he frequently used violence towards her, and at immediate front, containing eight 10-inch Krupp. At the corresponding elevations of the required were convicted and fined \$1,000, with six care was taken in constructing to enable yesterday was admitted to bail in the sums of shipmasters will, enabled him in mine fields, within the harbour are containing eight 10-inch Krupp. At the corresponding elevations of the required were convicted and fined \$1,000, with six care was taken in constructing to enable yesterday was admitted to bail in the sums of shipmasters will, enabled him pressure of such a vast body of water.

The bottom of the reservoir was lined with morning, he failed to appear. Mr J. blue bricks with a coating of asphalte, and H. Kemp ordered defendant's bail to beto carry off the water that might percolate

THE YELLOW PERIL

The Times in discussing what it describes as the mischiovous and dishonest cry of 'the yellow peril,' raised by the Continental press, says that only if Japan is confronted by an international boycott, is she likely to make the yellow peril a reality. No policy could be more fatuous or unjust than to exclude her from the sisterhood of residents have protested to their home govcivilized peoples and neither Great Britain nor the United States would lend an ear to such advice.

POST OFFICE REPORT.

The report of Mr S. B. C. Ross, the Acting Post Master General, shows that, with the exception of one item, increase all round was general. The only decrease was shown in the sales of stamps in the British Agencies, on which a falling off of \$7,839.52 was apparent, and Shanghai and Canton accounted for \$7,276.97 of this amount. The opening of the Siberian route to mails sent by foreign offices before the British office was able to send them and the improved methods in the Imperial Chinese Postal Service are set down as being responsible for the decrease. . There is little doubt,' writes Mr Ross, 'that this will occur in other agencies and that as the Chinese Postal Service comes into line with other countries in the Union, the receipts from the British Agencies wil

diminish. In Hongkong an increase of \$86,885.81 over the previous year was shown in the postage stamps sales, so that in the combined sales \$78,047.29 extra was netted. The Revenue received from all sources amounted to \$414,867.20, an increase of \$27,801.01 over the previous year, while the expenditure amounted to \$334,177.40. as against \$316,240.12 for the previous \$80,689.80, which, compared with 1912. showed an increase of \$9,863.73. One of from 284 in 1902 to 503 in 1903, equalling 177 per cent. Owing to some of the licures letters the total in 1903 was actually 472,260 present trial. in 1902 it was given as 475,510, showing a [decrease of 3250. The number of steamers carrying mails during the year amounted to 16,684, as against 15,858 for 1902. Imperial Postal notes sold shows ing year, and Local Postal notes were

\$2,492.18 in excess of last year. Mr Ross remarks that the space provided in the Parcels Branch is inadequate. somer guilty of the charge or of any charge. The alterations that have been made in the It appeared to him to be absolutely clear hai Lands are still offering at Tls. 108. value, the ores are exceptionally free from hereby informed that their Goods are being Registration and Parcel Branch provided sufficient room for the ordinary routine l work, but for dealing with the mails which | Coming to the question of injuries inflicted arrive by the contract passets the space is too limited. THE SINGAPORE SHOOTING CASE.

Verdict of Manslaughter. The hearing of the charge of murder against Mr Somers, of the Fanny Stanley Opera Company, was continued on May 6 at Singapore. Mr Raine, who appeared for accused, laid stress on the point that when Somers took the weapon he had no intention to use it against a man he had never seen before. It was a natural taking, and Somers was under the impression when he took it that it was not loaded. It was a fixed belief in his mind that the weapon was harmless. He asked them to believe that Scott did not know that the pistol was fixed for firing. With regard to any hositation in Scott's evidence he wished year. The profit for the year was I the jury to realise what he believed himself that in his heart Scott knew that his the items to show an almost phenomenal own negligence was responsible for increase is the insured letters, which rose | Wurzbach's death. are reported in the North.

MANGANESE IN BORNEO.

Large Deposits Available.

The following extract from the metallurgical Report upon Manganese deposits of Marudu Bay, British, North Borneo, by Mr J. C. Head, F.O.S., F.J.C., who was especially engaged to investigate the ores of the district, appears in the British North Borneo Herald.

The area about the region of the Man. the latter. ganese deposits is very much broken up, and for the most part consists of ridges or ranges of hills, rising in height from a few hundred to twelve hundred feet, with general direction nearly East and West. Between these ranges of hills are immense ravines or gorges, in which the rivers take their source, thence flowing in a Westerly direction to the Bay.

The country rock is of a Jaspery nature overlaying altered Greenstones, with Hornblendic, Chloritic and other echits. The Manganese Ore is almost invariably in this journal (Times of India) a letter found associated with this Siliceous material written from Hongkong in which attention of one variety or another. In some local- was directed to the pressing need for a facilities for its elimination.

Oxide of Barium replaces the Silica to with in the latter variety, the Silica varyon one of these places the crust may give ing form only 0.3 per cent. Barium in way, with broken limbs as a probable the form of an oxide is not a deleterious Legislative Council, and it has already been I have filled up with small stones at least | ingredient, as it would behave as a flux in In considering the question of the

instructions being to report upon the orea There should, I think, be some regular of the district from a metallurgical point The Manganese deposits had, up to the time of my departure, been proved to extend over a very considerable area. I have little hesitation is saying that, by the sys tematic prospecting of the district, and the opening up of the already located deposits, further valuable finds will assuredly be

> I have visited, with your representative, Mr Robertson, places some fifteen miles and more distant from Taritipan, where we invariably found more or less Manganese. Only a few days previous to my leaving, the natives brought in samples of a most promising nature from 'Tingkulanan' five miles S.E. of 'Balaisjong.

> Personally I had no time to inspect this find, but talested Chinamen were sent over to examine the district, and to bring back further average samples. From the description' they give us of, the deposits, these certainly appear to be as extensive, and equal in quality, in most respects, to any already located.

From the present state of the developimpossible to form any correct estimate Corrections. of the quantity of good markefable ore that will ultimately be available. After having, Piecework), also Hours Convenient to Typist question, I have come to the following con- ness Hours.

That for the first twelve months of operations with the completion of the jetty and some seven and a half miles of railroad, which is now practically ready for ballasting and laying down of the sleepers and rails, marketable ore. After that time, provided the development and opening up of the other localities be proceeded with, an out-

In the wettest seasons of the year I should consider it unlikely to Captain Gow, will be despatched as above

In respect to Sulphur and Phosphorus. two most deleterious constituents, usually \$11 and \$114 at which latter figure there maximum limit of 0.045 per cent, so either case, thus partly compensating for any loss | notice to the contrary be given before

to this latter constituent, and I find that remaining undelivered after 21st inst., ordinarily it would not be safe for you to will be subject to rent, Miscellaneous. - Green Island Cements guarantee less than 15 per cent. of Silica, All Broken, Chafed, and Damaged Goods have been in strong request and sales at uples the mineral was more or less select are to be left in the Godowns, where they \$254 and \$26 have taken place, the market ted, or taken from any specified deposit, will be examined on SATURDAY, the 21st closing with further enquiris at the higher that was known to contain this ingredient rate. A. S. Watsons are lo the market at in lesser quantity. One of my chief aims Electrics (old) have been done at has been to arrive at a definite conclusion Ices have improved, and are wanted as to the possibilities of your being able to at \$2124. Dairy Farms can be placed at ship cargoes of a specified quality. In Steam Waterboats are enquired for conjunction with Mr Robertson, I have the undersigned. at \$10 ex the interim dividend of 70 cents | very parefully considered this matter from

That by judicious mixing of the ores from

the various deposits. an average through cargo would yield as follows :-

Phosphorus That a picked cargo would give :-8 to 10 per cent.

Sulphur ... estimate that the output form the vari ous deposits would yield about 65 per cent. of the former quality, and 35 per cent. of

The above data has been arrived at from the analysis of some 29 bulk samples from the various localities, the Silica contents varying from 0.3 per cent. to 22.30 per cent., and the Manganese from 42.72 per cent to 57-50 per cent., the average being

... ... 14,59 per cent.

THE PEAK RESERVATION

Comments by a Bombay Editor. Rather more than a year ago we printed

ities it takes the form of Jasper, and in European reservation in that colony. At others Chert; this, therefore, accounts for that time, although the urgency of the questheunusually high Silica contents of the ore. I tion was generally recognised in European Where this ingredient is of a Cherty nature | circles at Hongkong, there appeared to be it is plainly visible and could be separated no disposition in that busy community to from the ore by trimming, hand sorting, or take organised steps to place it in a wellprobably by some means of mechanical considered form before the local Governconcentration at no very great cost; but, ment. What was everybody's business had where it enters into combination as a ended in being nobody's business; and Silicate, it is not easily detected, nor can it | while merchants and officials alike were be separted. Fortunately, however, with | ready to bewail the danger that threatened the more Siliceous varieties of the ore it is | them, they had not made up their minds found in the form of Chert, thus affording to face it in a vigorous and practical manner. A very different spirit appears to The ore is essentially what is termed have now succeeded the comparative apathy · Pailomelane, a variety mainly composed of a year ago. The European residents, of the Peroxide of Manganese. In few acting in unison, have drafted a petition to localities, notably at Kajukuja, it takes the Government in which they ask that the more the form of 'Pyrolusite,' where Hill District may be declared a European reservation: The Hongkong Government have responded with a promptitude which, considerable extent, and is seldom met if it is typical of their methods, entitles the colony to congratulation upon so energetic an Administration. Within five weeks a

Bill was drafted, and brought before the 918 read a first time. It reserves the whole of the Peak for the exclusive residence of non-Chinese inhabitants; and if it is carried. paths have been constructed, and it is dott- on the Company. . ed with handsome and comfortable villas. A cable tramway gives rapid access to the summit, and so quick is the communication,

that some business men oven climb the mountain for tiffin. To a visitor from Bombay, it is very much as though the cool heights of Matheran had been brought within ten minutes journey from the Fort. There is always a delightful breeze at the Peak, and the temperature is at all times appreciably lower than in the sweltering city below. So healthy is the situation, WEDNESDAY, the 18th May, 1904, when that invalids from the coast ports frequently go there to recuperate, and more than one sanatorium has been erected.

MARTIN'S SAPIOL STEEL Tor Ladles PILES A French Remedy for all Irregularities. Thousands of Ladies keep a box of Martin's Phils in the house, so that on the first sign of any Irregularity of the System a timely dose may be administrated. hose who use them recommend when he had a substitute and many be administrated. These who use them recommend when, hence their enformed sale, all Chemists and many be not tree 6/- MARTIN. SETTIAM FIGURE MARTIN.

BROKEN-DOWN SYSTEM. This is a condition (or disease) to which doctor give many names, but which lew of them really understand. It is simply weakness -a break-down, as it were, of the vital forces that sustain the system. No matter what may be its causes (for they are almost numberless), its symptoms are much the same; the more prominent being alcepiesaness, sense of prostration or weariness, dipression of spirits and want of energy for all the ordinary affairs of life. Now, what alone is absolutely essential in all such cases is increased vilality-vigour-VITAL STRENGTH & ENERGY to throw off these morbid feelings, and experience proves that as night succeeds the day this may be more certainly secured by a course of the cale-brated life-reviving tonic

than by any other known combination. So surely at it is taken in accordance with the printed directions accompanying it, will the shattered health be restored,

THE EXPIRING LAMP OF LIFE LIGHTED UP AFRESH nud it new existence imparted to place of what had so lately seemed work out med up, and had so lately seemed work out med up, and valueless. This wonderful restorative is purely regetable and innocuous, is agreeable to the take regetable for all constitutions and conditions, in militable for all its difficult to imagine a case of militable of debility. That will not be speedly and those of debility. That will not be speedly and those of debility. That will not be speedly and permanently benefited by this never-failing remperative essence, which is destined to cast into oblivious everything that had preceded it for this oblivious everything that had preceded it for this wide spread and numerous class of human aliments.
